

Radio Buttons

A set of radio buttons (round buttons), from which only one choice can be selected at a time. The reset button in the corner removes any current selection and returns the field to a null (absent) value.

The screenshot shows a software interface for a radio button widget. At the top, there is a toolbar with icons for edit, copy, paste, add, stop, and delete, followed by the text "Variable: radio_button". Below the toolbar, the widget is labeled "Radio Button" on the left. On the right, there are five radio buttons, each followed by the text "option 1" through "option 5". In the bottom right corner of the widget, there is a "reset" button.

Choices:

```
1, option 1
2, option 2
3, option 3
4, option 4
5, option 5
```
