

Coordinator

This role is intended to represent users who supervise data entry staff at a project site. This could be a coordinator, research assistant, etc.

Users assigned to this role should be assigned to the Data Access Group for their site.

The Supervisor can perform all data entry functions, can respond to queries (if enabled for the study) and can also rename participants. Permissions include:

- User Rights
- Data Exports - De-Identified
- Add/Edit Reports
- Stats & Charts
- Calendar
- Data Export
- Logging
- Execute data quality rules
- File repository
- Create, rename and delete records (For some studies it may be appropriate for supervisor to also be able to delete records)
- Respond only to opened queries
